

Chairman Phil Mendelson

AN AMENDMENT (#1)

Bill 24-382, "Contracts with Managed Care Organizations for the Provision of Health Care Services to District Residents Emergency Approval and Authorization Act of 2021"

Bill 24-383, "Contracts with Managed Care Organizations for the Provision of Health Care Services to District Residents Emergency Approval and Authorization Act of 2021"

(Introduced Versions)

October 5, 2021

Section 2(a) is amended as follows:

(a) The lead-in language is amended to read as follows:

"(a) Approves and authorizes performance for a period of nine months (October 1, 2021 through June 30, 2022) under:"

(b) Paragraph (1) is amended by striking the phrase "No. CW83144" and inserting the phrase "No. CW83144, signed September 16, 2021" in its place.

(c) Paragraph (2) is amended by striking the phrase "No. CW83146" and inserting the phrase "No. CW83146, signed September 16, 2021" in its place.

Rationale: First, the amendment provides additional clarity to emphasize that the three contract actions (two modifications and a new contract) are approved, and performance authorized, for nine months, through June 30, 2022. This reflects the agreement by the Council and the Executive.

Second, the amendment contains additional identifiers for the two contract modification documents (the option period approvals) to clarify that the Council is approving the contract actions as actually countersigned by the vendor and the District contracting officer on September 16, 2021. This is consistent with the Mayor's letter to the Council transmitting signed copies of the contract modification on October 4, 2021
