- **Improve the competitive position of Washington Dulles International Airport through revenue enhancement, growth of domestic and international air service, and a stronger focus on the customer experience, and implement passenger-centric programs, including concessions redevelopment and technology enhancements, and pursuit of non-aviation revenue in concessions and land development,**
- **Cost discipline in operational and capital plans and conservative financial management, including execution of re-financing opportunities,**

- **Move forward with construction of the Silver Line extension of the Metrorail system in accordance with schedules and budgets.**
- **Work with residents, community leaders, airlines and the Federal Aviation Administration to address concerns related to aircraft noise.**

Each of these priorities is the focus of their respective functional areas within the Metropolitan Washington Airports Authority, with employee and departmental goals specifically linked to progress toward achieving their assigned aspects of each goal or objective. The Airports Authority holds individuals in all its business units responsible for successfully attaining the organization's goals and priorities.
